# *History of the Common Council of the City of Indianapolis*

Indianapolis was established as a town in 1821. It was at this time that a commission, appointed by the legislature, selected this location as a site for a seat of government of the State of Indiana.

The town of Indianapolis conducted its affairs pursuant to the general laws of the state until 1832. In this year the town was incorporated and was governed by a board of five trustees.

In 1838, pursuant to a special act of the legislature, Indianapolis was re-incorporated and placed in the hands of its first town council composed of a president and six members.

The common council continued in a large measure to control the affairs of Indianapolis as a town and as a city under various so-called charters or grants of the legislature until 1891.

Under a special act of the legislature of 1891 for the city of Indianapolis, a somewhat different form of government was estab-

lished. While the council continued to exercise broad control over the city's affairs, various executive departments of the city were provided, such as Public Works, Public Safety, Public Parks and Public Health, conducted by boards appointed by the Mayor. These boards were granted specific powers and duties concerning the city's business previously exercised by the council through committees subject, however, in some cases to approval of the council in all matters of expenditure of money and appropriation of funds by the council.

For some time prior to 1891 the City of Indianapolis was divided into 25 wards represented by 25 ward councilmen. Their term of office was two years and they were eligible for re-election. At this time there was also a separate body operating in conjunction with the council called the Board of Aldermen, composed of ten Aldermen, representing five Aldermanic districts, two being elected from each district.

Under the 1891 act the Board of Aldermen was abolished and a common council of 21 members was established. Fifteen members were elected to represent 15 wards and six members were elected to represent the city at large.

This form of council continued to exist in Indianapolis under the general cities and towns act of 1905. The act of 1905, while often referred to as the Indianapolis Charter, is very largely a re-enactment of the 1891 Indianapolis charter, modified to make the Indianapolis system applicable to all classes of cities of the state. The 1905 law increased the term of Mayor and councilman to four years and prohibited re-election.

In 1909 a novel councilmanic law for Indianapolis alone was passed by the legislature. This law limits the number of councilmen to nine. The law provides for the nomination by each party of six candidates, one from each of six councilmanic districts. In the election all of the voters of the city may vote for any nine candidates and the nine receiving the highest number of votes are elected. This law insures a minority representation in the Council of at least three members. In 1949 the legislature amended the statutes to permit councilmen to succeed themselves.

## COMMUNICATIONS FROM CITY OFFICIALS

January 7th, 1964

TO THE HONORABLE PRESIDENT AND MEMBERS OF THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS:

Gentlemen:

I have this day approved with my signature and delivered to the City Clerk, Mrs. Angeline Allstatt, the following resolution.

RESOLUTION NO. 1, 1964

JJB:ah

January 16, 1964

TO ALL MEMBERS OF THE COMMON COUNCIL
OF THE CITY OF INDIANAPOLIS:

Gentlemen:

As you probably know, the 1963 Session of the General Assembly of Indianapolis passed an Act permitting the construction of a Civic Center in counties having a city of first-class providing the matter is approved by the electorate of the county at a county election. The law requires that the governing bodies of the city and county shall both pass Resolutions requesting a joint hearing to decide if the matter shall be placed before the electorate and go on the ballot for a referendum.

During 1963 both the City and the County passed such a Resolution. The law further states when such Resolution have been passed, the County Auditor shall cause a notice to be published once each week for two weeks in two newspapers for general circulation in the county setting out the time and place of a joint hearing.

If, after such a public hearing, the governing body shall determine that the public interest will be promoted by the construction of a Civic Center, a concurrent Resolution to such effect is to be separately adopted by both governing bodies.

Mr. John T. Sutton, the Auditor of Marion County, has called a joint meeting to hold a public hearing on the matter. The hearing

date has been set for Monday, February 10th, 1964 at 7:30 P.M. in the public assembly room in the City-County Building. Notice of the meeting is to be published on January 10th and 17th in the Indianapolis News and the Indianapolis Commercial. It is therefore suggested that all members of the City Council hold the date and time in reserve on their schedule for the public meeting. Mr. Sutton has asked that I notify the members of the Council at this time so they can plan to be present as the hearing will be of great importance to the citizens of Marion County.

Very truly yours,

JOSEPH C. WALLACE, President
Common Council,
City of Indianapolis

The City Controller is directed to adjust their said compensation so that they shall be paid in full as deputy chiefs from January 1, 1964.

Section 4. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor, but effective as of January 1, 1964, and being an inter item transfer without compliance with the procedure for additional appropriations.

Department of Public Safety
Inter-Department Communication

March 26, 1964

To: Members of the City Council
From: The Board of Public Safety
Subject: City Market

Gentlemen:

Attached is a list of installations and repairs together with the estimated costs thereof, as submitted to us by Building Commissioner, George C. Wright.

These repairs and installations will be necessary to meet the Indianapolis Building Code and also meet requirements of the Marion County Health and Hospital Corporation.

We are sending this herewith to ask what would be your recommendations, also whether there are funds available or whether you could appropriate funds for these repairs.

Also bear in mind that a new building could be constructed for $8.00 per square foot, therefore, a new City Market of the same size would cost $375,000.00.

It appears to the Board of Public Safety that it would be injudicious or unwise to spend between $250,000.00 and $300,000.00 to repair a building 80 or 90 years old, when a new one could be constructed for such a small difference.

There are aso other facts which should be discussed, which the Board of Public Safety or its representative will be happy to discuss at your convenience. Contact us at any time and we will meet with you.

We are sending copies of this interdepartmental communication to the Honorable Mayor John J. Barton; Corporation Council Michael B. Reddington; Director of Health, Dr. Henry Nester, and Building Commissioner, George Wright.

From: Commissioner of Buildings
Re: City Market:

This Bureau has made several inspections of the above building, for the purpose of finding what must be done to the building in order to make it acceptable to the Public Health Division, and to this Bureau. It is obvious that an exact take off of materials was not possible to us, and we understand that this was not expected.

The cost estimate which follows was made to guide your Board in its considerations of this building.

## INTRODUCTION OF APPROPRIATION ORDINANCES

### APPROPRIATION ORDINANCE NO. 6, 1964

Introduced by Councilman Moriarty

AN ORDINANCE, appropriating, transferring, reappropriating and reallocating the sum of Thirty Thousand Dollars ($30,000.00), from a certain specific, designated item and fund in the Department of Public Parks of the City of Indianapolis, to a certain other designated item and fund in the same department, created by virtue of the 1964 Budget, General Ordinance No. 58, 1963, declaring an emergency and fixing a time when the same shall take effect.

WHEREAS, certain extraordinary conditions have developed since the adoption of the existing Annual Budget, and certain monies appropriated for certain accounts of the Department of Public Parks are insufficient to meet current needs of the Department, and

WHEREAS, certain existing appropriations for said department now have unobligated balances which will not be needed for the purpose for which appropriated.

NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, INDIANA:

Section 1. That a certain item and fund specifically budgeted in the Department of Public Parks, be and the same is hereby reduced in the following amounts, to-wit:

DEPARTMENT OF PUBLIC PARKS
DIVISION OF PLANNING AND CONSTRUCTION
BOULEVARD CREW

| REDUCE | GAS TAX |
|---|---|
| 4. MATERIALS | |
| 42. Street, Alley & Sewer | $30,000.00 |

and said amount is transferred therefrom, reappropriated and reallocated to the following item and fund.

| INCREASE | GAS TAX |
|---|---|
| 2. SERVICES-CONTRACTUAL | |
| 26. Other Contractual | $30,000.00 |

Section 2. That said funds for the Department of Public Parks are needed for the emergency construction of Boulevards, and to meet such extraordinary Boulevard emergencies.

Section 3. This transfer and reappropriation is necessary due to the fact that the Board of Park Commissioners believed in making its 1964 Budget, that Boulevards should periodically be resurfaced and reconstructed instead of being patched and repaired, and the Bureaus revising and adjusting the annual budget did not follow the recommendations of the Board of Park Commissioners and they cut Fund 26 instead of Fund 42, as recommended by the said Board of Park Commissioners. That it is necessary each year in order to maintain the Boulevard system of the City of Indianapolis, to repave and reconstruct a certain portion of the Boulevard system and the failure to so do would result in more rapid breakup and more extensive reconstruction and repaving in future years, and that the emergency for such work does now exist.

Section 4. This ordinance shall be in full force and effect from and after its passage and approval by the Mayor, and compliance with all requirements for additional appropriations.

Which was read for the first time and referred to the Committee on Finance.

# INTRODUCTION OF GENERAL ORDINANCES

Introduced by Councilmen Kuykendall & Cummings

AN ORDINANCE prohibiting discrimination in connection with housing units because of race, color, religion, ancestry, or national origin by owners, lessees, sub-lessees, assignees, managing agents, real estate buyers, real estate salesmen or agents and lenders and prohibiting discrimination in the sale, lease, sub-lease, rental, assignment or other transfer of the title, leasehold or other interest in any housing unit to any person because of race, color, religion, ancestry or national origin and providing duties and procedures for the Commission of Human Rights of the City of Indianapolis for the enforcement thereof and providing penalties.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF INDIANAPOLIS, AS FOLLOWS:

(a) The population of the City of Indianapolis consists of people of every race, color, religion, ancestry and national origin, many of whom are compelled to live in circumscribed and segregated areas, under sub-standard, unhealthy, unsafe, unsanitary and over-crowded living conditions, because of discrimination in the sale, lease, rental and financing of housing;

(b) These conditions have caused increased mortality, disease, crime, vice and juvenile delinquency, fires and the risk of fire, intergroup tensions, and other evils, thereby resulting in great injury to the public safety, public health and general welfare of the City of Indianapolis and reducing its productive capacity;

(c) The harmful effects produced by discrimination in housing also increase the cost of government and reduce the public revenues, thus imposing financial burdens upon the public for the relief and amelioration of the conditions so created;

(d) Discrimination in housing results in other forms of discrimination and segregation, including racial segregation in the public

schools and other public facilities, which are prohibited by the Constitution of the United States of America, and are against the laws and policy of the State of Indiana and the City of Indianapolis.

SECTION II. DECLARATION OF POLICY

1. AGREEMENT:

That the Company, in consideration of the payment of the several sums of money as hereinafter set forth, hereby covenants and agrees to furnish and supply said City of Indianapolis, in its corporate capacity, with electric lights of the number, kind and standard hereinafter specified, and with such additional electric lights of the number, kind and standard which may be hereafter ordered installed by the Board, and to furnish and supply current for light and power for all public buildings, public equipment and other public places, including maintenance, as specified herein, upon the conditions and stipulations and subject to the limitations as hereinafter set forth; and the City, on its part, expressly covenants and agrees that it will not use light or power for the above purposes from any other source during the term of this contract.

This contract does not cover service to the sewage disposal plant, service for which is presently covered by separate contract dated

January 28, 1952, between Indianapolis Power & Light Company and the City of Indianapolis by and through its Board of Sanitary Commissioners, nor does it cover standby or auxiliary service required by the City of Indianapolis, or any service requested by the City of Indianapolis involving unusual capacity requirements or load characteristics, unusual investment on the part of the Company, or other abnormal conditions, which shall be covered by a special contract commensurate with the conditions and which shall be subject to the approval of the Public Service Commission of Indiana.

2. COMPANY TO FURNISH EQUIPMENT:

That the Company shall furnish, for use in the performance of this contract, all the necessary materials, labor, plant, machinery and appliances, and construct, operate and maintain the same in such streets, avenues, alleys, subways and other public places within said City in such manner as the Board may from time to time direct during the life of this contract; provided, however, that the number of lights to be operated and maintained by the Company shall not be at any time less than that shown and set forth in the specifications attached hereto, marked "Exhibit A" and, by reference, made a part of this contract the same as if incorporated herein.

That the contract term of this agreement for lighting the streets, avenues, alleys and other public places of the City, as herein provided, shall begin at 12:00 o'clock noon on the 10th day of October, 1964, and continue for and during the term of five (5) years, ending at 12:00 o'clock noon on the 10th day of October, 1969.

The Board reserves the right to order changes from time to time in the location of any part of the street lighting system or other equip-

ment described in said specifications, whenever such equipment is obstructing public improvements proposed by the City. The Company agrees that it will move, upon written direction of the Board, a maximum of twenty-five (25) light standards and forty (40) overhead light poles (with equipment) each year during the term of this contract without making any charge for such changes.

In case the Company shall neglect or refuse to obey such orders of the Board with respect to moving standards or poles without charge, the Board is hereby authorized to perform such work and charge the cost thereof to the Company and deduct the same from any moneys due or which may become due to the Company.

All other changes in location of portions of Company's street lighting system or other equipment described in the specifications and located in streets, avenues, alleys or other public places necessitated by proposed public improvements shall be made by the Company at the expense of the City. Such expense shall be estimated in advance by the Company upon the basis set out in Section 6 of said specifications.

No standards, poles, guy stubs or other portion of the Company's street lighting system now located in streets, alleys, avenues or other public places, or which may hereafter be located therein with the approval or at the direction of the Board, shall be relocated to suit the convenience of any private person, except upon written order of he Board. The Company agrees that it will, as nearly as possible, restore, or cause to be restored, all streets, avenues, alleys and other public places to the same condition after the completion of any of its work as they were before being disturbed; that it will at all times make, or cause to be made, any and all repairs to the pavement of any street, avenue, alley or other public place which may be necessary by reason of the same having been excavated or disturbed by the Company in the prosecution of its work; that it will not, except upon emergencies, cut or enter into any street, avenue, alley or other public place without having first (a) filed maps, plans and specifications with the Board showing the work contemplated, (b) obtained the written consent, approval and permit of the Board thereto and (c) paid the permit fees required by ordinance. In the event the Company shall cut or enter into any street,

avenue, alley or other public place for emergency repairs, the Company shall, within twenty-four (24) hours or by the next business day thereafter, secure a regular permit from the Board covering such work and pay the permit fees provided by law.

5. PROTECTION ON WORK:

That the Company shall not at any time open or encumber any more of any street, avenue, alley or other public place than shall be necessary to enable it to perform the work of laying its wires, conduits, cables and other appurtances with proper economy and efficiency. Any opening or encumbrance of any such street, avenue, alley or other public place shall not be permitted to remain for a longer period than may be necessary in the judgment of the Board; and the Company shall effectually guard all such openings and encumbrances with barricades and lights to protect against accidents or injury to any person by reason thereof.

6. CITY RESERVES RIGHTS IN STREETS:

That the City reserves to itself all rights and powers which are now and may hereafter be vested in its Common Council, Board of Public Works or other boards or officers concerning the regulation or the use of its streets, avenues, alleys or other public places, to prevent obstructing, damaging or encumbering the same; to regulate and protect sewers; to control the digging into and excavating such streets, avenues, alleys or other public places and to prohibit injury to the same, and reserves full right to exercise any and all of its police powers at any time. Nothing contained herein shall be so construed as to in any way abridge any of such powers.

7. COMPANY TO CONFORM TO ORDINANCES:

That the Company shall, in all operations connected with the work of construction or the lighting herein contemplated and specified, or in furnishing current or light hereunder, and in all other matters, conform to and obey all city ordinances or laws controlling or limiting in any way the actions of those engaged upon the work or affecting the materials used. The Company shall take all necessary precautions for the protection of life and property.

8. CONTRACT SUBJECT TO LAWS AND ORDINANCES:

That this contract, in all matters not herein specified, shall be subject to the provisions of the Acts of the General Assembly of the State of Indiana and the Ordinances of the Common Council of the City of Indianapolis, so far as they are applicable hereto.

9. LIABILITY:

The Company shall and hereby agrees to indemnify and save harmless the City, it officers and employees, from and against all loss, damage and expense resulting from or caused by the negligence of the Company in the construction, repair and maintenance of its property and system, or any part thereof, used in connection with supplying electric energy in the performance of this contract, but the Company shall not be liable to the City or to third persons, by reason of any covenant or promise herein made, for damages resulting from injuries to or death of any person, or for damage to or destruction of any property, when the Company's only connection with such injury, death, damage or destruction, or with the event or events resulting in such injury, death, damage or destruction, is established by proof that such injury, death, damage or destruction, or the event or events resulting in injury, death, damage or destruction, was caused by, contributed to, or resulted from the failure for any reason or cause of any lamp or lamps in any part of the Company's electric lighting installation to be illuminated.

10. SPECIFICATIONS:

hibit B" shall be due and payable in monthly installments. The amount to be paid for service for any one month shall be due upon presentation of a bill therefor and shall be payable within thirty (30) days from date thereof. It is further agreed and stipulated that all forfeitures accruing and due the City for any reason, from time to time, under this contract, shall first be deducted from the sums to be so paid by the City. Bills will be rendered monthly, by the Company to the Board, for services supplied under this contract. Prices quoted in "Exhibit B" are net and are subject to a three per cent (3%) collection charge when not paid to the Company within thirty (30) days after date of bill.

The expense of such arbitration, including the services of such third Arbitrator, shall be borne by the party requesting it, excepting in those cases where the Arbitrators decide in favor of the party making the request, whereupon such expense shall be equally divided between the City and the Company, but each party shall pay for the services of its own appointee at all times. Any expense chargeable to the City for such arbitration shall be paid from any funds available therefor.

Said record shall also state the cause, if known, of each said light being extinguished or failing to burn.

When by reason of any order or requirement of the Federal Government, or other duly authorized authority, the use of electric current for street lighting is limited or prohibited, or street lighting is prohibited in toto or for any given number of lamps, then no payment shall be made by the City of Indianapolis for such lamps as are not burning during the period of the order. If the order of the government, or other authority, limits and restricts lighting during certain hours of the night, the payment under the contract shall be adjusted upon a basis to be agreed upon by the City and the Company, or determined by the Public Service Commission of Indiana.

9. JOINT USE OF POLES AND CONDUITS:

The Company, in order to avoid multiplicity of poles and conduits in the streets, avenues, alleys or other public places, so far as it is safe and practicable and not in conflict with any restriction of the City Council or any Act of the General Assembly of the State of Indiana or order of the Public Service Commission of Indiana, shall, upon written request of the Board, permits joint use of all or any of its poles and conduits, in any street, avenue, alley or other public place, by the City for street signs and traffic signal control circuits, or by other public utility companies, upon terms mutually agreeable to those affected.

In the event it is necessary to replace a pole or poles upon which the City has made attachments under the contract, because of street improvement, or because the pole is deteriorated, or because the load on said pole or poles has become greater than is safe for the pole to support, the City shall, at its own expense, transfer the attachments from the old to the new pole or poles within ten (10) days after being requested, in writing, to do so by the Company.

Use of Company's conduits by the City, as hereinabove set out, shall conform to the standard specifications of the Company for such use, and the use thereof by the City shall not interfere with the use of said conduits by the Company.

The installation and maintenance of any and all traffic signal control circuits in Company's conduits shall be at City's expense.

In the event it is necessary or desirable, in the opinion of the Com-

When the transformers and other facilities and equipment required to furnish and supply current for light and power for public buildings, public equipment and other public places are mounted on wood poles, the Company will install, own and maintain the necessary transformers, protective equipment and other facilities and equipment and make the connections to the City's service outlets.

The Company shall supply one meter for each public building installation, except where more than one department occupies a building. In such event a meter must be connected to the wiring for each department, if the Board, in writing, so requires.

The Company shall supply electric service to public buildings for heat, light and power for the twenty-four (24) hours of each and every day during the term of the contract.

12. IMPROVEMENTS IN SERVICE:

The Board shall have the right to require the Company to make use of any apparatus, appliances or devices, that are an advancement or improvement in connection with the art or service of street lighting over the existing facilities as now or newly installed according to the contract and in use during any part of the term of the contract in the City of Indianapolis, whether in the way of economy, increased illumination, safety, improved appearance or otherwise. The Company shall, at the Board's request or as the Company becomes informed thereof, furnish to the Board detailed information concerning any such apparatus, appliances or devices, including cost of installation, operation and maintenance, operating characteristics and any other data requested.

The Company shall be entitled to adjust the compensation from the Board so as to properly reflect, during the remaining term of the contract, any increase or decrease in the investment required and any change in operating expenses caused by the new installations or replacements.

The net increase or decrease in the investment and the change in the cost of operation and maintenance shall constitute the basis for the determination of the rates and charges thereafter to be paid by the Board to the Company for the improved or modified service; and the modifications or changes in the rates and charges, set forth in Exhibit B attached to the contract, including the addition of any new rate or charge, by reason of the improved or modified services, shall be incorporated therein by an amendment or modification of the contract approved by the Public Service Commission of Indiana, or any other body established by law succeeding to the powers now or hereafter exercised by said Commission.

In the cases of replacements, the Board shall and hereby agrees to pay to the Company the original cost of the facilities and equipment replaced less depreciation, plus the cost of removing the facilities and equipment to Company's storeroom, minus any salvage value of the facilities and equipment so replaced. The amount to be paid by the Board to the Company shall be due upon presentation of a bill therefor and shall be payable within thirty (30) days from date thereof.

13. ELECTROLYSIS:

Reasonable provision shall be made and maintained by the Company to protect the pipes, conduits and other property in the streets or other public places, belonging to the City or to any other public utility or to any abutting property owners or occupants, from electrolysis caused by current or currents of electricity of the Company.

14. STANDARD OF PERFORMANCE, TESTS AND PENALTIES:

The voltage and amperage supplied to each lamp shall be such as to maintain the lamps according to the standard requirements of the manufacturers.

The Board may at any time request the Company to make tests as to the voltage and/or current supplied to any lamp or group of lamps and the appurtenances thereto, in the presence of a representative of the City; and the next following working day after the making of such tests, the Company shall report to the City the results of such tests.

In case of a dispute between the Board and the Company as to the accuracy of any meter or other instrument used in making tests or measurements of the Company's service, said instrument may be tested either in the City's laboratory, in the presence of a representative of the Company, or in the Company's laboratory, in the presence of a representative of the City, at the option of the Board, or the Board and the Company may agree to have such instruments tested by an outside laboratory of recognized standing.

The City shall indemnify and hold the Company harmless from all injuries and damages to persons or property by reason of said inspections or tests, except such injuries or damages as may be caused by the negligence of the Company.

The deductions to be made for low amperage or voltage, under the provisions of this section, are not to be treated as a penalty but as liquidated damages for failure to perform the contract.

15. VOLTAGE AND CHARACTER OF SERVICE:

The Company shall specify the voltage and character of the electric service to be supplied, and it may, at any time thereafter, change the characteristics of the service if it deems such change necessary to safeguard a regular and uninterrupted supply of electricity or to better the conduct of its business. It is agreed, however, that when apparatus owned, operated, and maintained by the City is affected, the Company will give the City reasonable notice of such contemplated change, and that the City will adapt its apparatus accordingly.

16. TAXES AND ASSESSMENTS:

Any extra expense incurred by the Company in the performance of the contract, due to any future laws or ordinances, or due to any ex-

isting or future special tax or sales tax levied on the Company by the United States Government, State of Indiana, or any division thereof, for service supplied under the contract, shall be assumed by the City, providing such assumption is not contrary to law; and any reduction in expense which may affect the Company in the performance of the contract by reason of any of the conditions stated above shall be credited to the City under the contract.

## INTRODUCTION OF SPECIAL RESOLUTION

### SPECIAL RESOLUTION NO. 8, 1964

Introduced by Councilman Hasbrook.

The Mayor and the Common Council of the City of Indianapolis are deeply concerned about the problems faced by nonwhite citizens of Indianapolis to find adequate housing on a basis commensurate with their means and income and by the same standards upon which white citizens acquire housing for both rent or sale. It is the stated policy and intention of the Mayor and the Common Council of the City of Indianapolis that all citizens of this city be extended full equality of opportunity in the purchase or rental of housing without discrimination based upon creed or color.

In an effort to secure equal opportunities for all citizens to acquire suitable housing the Mayor and the Common Council of the City of Indianapolis call upon all citizens to eliminate color and creed as a basis for judging a prospective renter or purchaser of a home.

Further, we especially call upon all those engaged in the sale, rental, or management of housing not only as individual citizens to eliminate these discriminatory practices from their business transactions but through their business associations to take positive steps in attacking the problem of finding adequate housing for all citizens, race and creed differences notwithstanding.

We also call upon banking, home mortgage, building and loan, and other home-financing institutions to develop a uniform set of qualifications and standards, which apply to all buyers of real estate who seek home financing, that take no cognizance of race or creed differences. Further we ask that these institutions, likewise acting in joint association, aggresively attack the problem of assisting nonwhite citizens in finding adequate home financing.

We further request that the newspapers of this community exercise leadership in the solution of this problem by the elimination of discriminatory advertising from their pages. In addition, that these papers actively support efforts to obtain housing for all citizens on their news and editorial pages including pointing out examples of progress as well as injustices which may occur.

It is the desire of the Mayor and the Common Council of the City of Indianapolis that reports on the progress being made by each of these groups be reported at least annually citing what progress has been made by the Real Estate industry, financial institutions, and newspapers. These reports to be made to the Housing Committee of the Human Rights Commission and that the Housing Committee of the

Human Rights Commission contact all such institutions, agencies, and business firms seeking their co-operation and assistance and making reports on progress or lack of same to the Mayor and the Common Council on July 1 of each year.

The Common Council of the City of Indianapolis charges itself with the responsibility of examining the housing situation within the City annually during the month of July and holding a public hearing annually to discover what progress has been made, what problems continue to exist, and what further action may be needed.

It is the hope of the Mayor and of the Common Council that significant progress in finding suitable housing for all citizens can be achieved annually through the understanding, co-operation, and help of all the citizens of this community without resorting to mandatory legislation which compels that which should come about by the practice of American principles of justice and equality.

This Ordinance was not assigned to a Committee.

GENERAL ORDINANCE NO. 85, 1964

AN ORDINANCE relating to the Public City Market, long located on all of the South Half of Square 43, in the City of Indianapolis, Indiana; now involved in certain pending litigation respecting its legal title and status; hereby providing for installing and use of parking meters on the West and East areas now used for the parking of vehicles, and prescribing the uses and regulations thereof; and hereby supplementing, amending and repealing, as herein set out, certain provisions of Title 3, Chapter 1, of the Municipal Code of Indianapolis, 1951, G. O. 140, 1951, as since amended, to provide and clarify such new and changed uses for such parking meters to produce new revenues for the exclusive operation, uses and maintenance of such City Market upon such land, to supplement all other revenues from all other sources; and for the creation of a special fund in the Department of Finance, under the City Controller, designated as the "Special Market Fund," so informally set up in 1958 and since so continued for the segregation of all funds from all sources for the exclusive uses of said City Market for all the purposes thereof; with all cash balances therein at the end of each year continuing in such Special Market Fund and not lapsing into the City General Fund; and providing penalties for the violation of this Ordinance, and fixing a time when it shall take effect.

BE IT ORDAINED BY THE COMMON COUNCIL
OF THE CITY OF INDIANAPOLIS, INDIANA:

WHEREAS, ever since November, 1957, certain litigation has been and still is pending in the class action of Paul C. Wetter, et al., as

taxpayers and representatives of the general public, etc., vs. City of Indianapolis, Indiana, and its various officials, including its Mayor, Board of Public Safety, Common Council, et al., and all successors thereof, being Cause No. C30729 in the Superior Court of Marion County, Indiana, Room 4; in which cause the special judge therein rendered a decree on April 30, 1963, for said City and against the plaintiffs and the Attorney General of Indiana; who have now perfected an appeal from such decree to the Supreme Court of Indiana, Cause No. 30455 in said court, which appeal is pending in due course, and so rendering unsettled and uncertain the final decision upon all issues in said cause, including the legal status, title and rights of the respective parties in such market land and its uses and control; that the subject-matters in this Ordinance or any other Ordinances, affecting said City Market and land, are now subject to the final decree, as decided upon said appeal, and this Ordinance is thereby limited to provide additional needed revenue for the uses and benefit of said City Market and its land in such interim; due to the emergency now and meantime affecting such needed additional revenues, to supplement all present other sources of revenues and so benefit all parties to said pending action, but without hereby affecting same, or in any manner waiving, or admitting any asserted rights, or contentions, of any parties to such litigation. That this Ordinance shall continue in effect as to any use of parking meters on said Market areas, and the uses of its revenues therefrom, as herein prescribed, until such pending appeal is finally decided by the courts and the status of such Market and land shall be thereby determined.

Section 1. The aforesaid Preamble is hereby adopted fully and is so included as explanatory of and a part of this Ordinance.

Section 2. That nothing contained in this Ordinance; or in any other Ordinance supplementing, or amending, repealing any provisions of this Ordinance, or of Title 3, Chapter 1 of said Municipal Code, 1951, as amended; relating to said City Market and land; shall constitute or be construed, or be used by any party to such aforesaid pending litigation, or by any counsel thereof; or by anyone else; as in any manner whatsoever, or in any Court; as being any admission, waiver estoppel, concession, abandonment, consent, or change, in the respective positions and contentions, theories, allegations, or status, of any party to such aforesaid pending action, or any other actions, or of any so represented thereby, now or hereinafter; respecting all subject matters now in issue, or that might be asserted by any parties, or by any others, respecting this City Market land and its permissible uses, now or hereafter, as heretofore long existing; all until the final adjudica-

tion thereof by the Courts. This section is included to protect all such parties and to avoid any doubts or apprehension of anyone, as to any possible adverse effect of this Ordinance upon the title, rights or interests of any and all parties, or of anyone else whatsoever.

Section 3. That Title 3, Chapter 1 of the Municipal Code of Indianapolis, 1951, being General Ordinance No. 140, 1951, as amended, relating to the public City Market, be and the said is hereby further supplemented and amended by adding thereto new sections to be numbered 3-117 and 3-118; and 3-119, providing penalties; and Section 3-120, repealing expressly all of Sections Nos. 3-115 and 3-116, as added to said Title 3, respectively, by G. O. 47, 1959 and G. O. 21, 1954; and also hereby repealing all other provisions of said Title 3, Chapter 1, clearly relevant hereto and in direct conflict with any provisions of this Ordinance; all such aforesaid sections reading, respectively, in the order as so numbered, as follows:

Section 3-117. That due to the destruction by fire in 1958, of Tomlinson Hall and its razing, including the loss of about one-third of the area of the City Market, so occupying its ground floor; all such land area, at the west side of said Market, has since then been vacant, and although paved and reserved heretofore for free parking of vehicles of patrons of said market on days it is open for sales, such ground has been also used without right, or compensation, for general public parking on other days; so that it is now for the benefit of all parties to the aforesaid pending litigation that such vacant paved west area, until market uses thereof may be restored, should be now used and be so regulated by this Ordinance and by the City Board of Public Safety, so as to produce revenue needed for the efficient operation and maintenance of said City Market, as set forth in the Preamble hereto; also to continue for such temporary use of such land, and without in any manner affecting its legal status and future uses, as finally determined by the courts; and if so decided for the appellants and against the City, such use may continue until such later time as such west area may be restored by a new building, or otherwise, to exclusive market uses; and that such land, in such interval, shall now be adapted and used in the following manner, to-wit:

(a) The City, by its Board of Public Safety; and as otherwise provided by law and provisions of the Municipal Code of 1951, as amended, shall acquire the necessary number of coin operated parking meters and install them upon such paved area to be herein called "West Lot," at space marked off for parking of single vehicles, as

herein prescribed and limited. Said Board may also arrange for the use of other personnel of the City, at anytime performing services for its other parking meters and needed for all the services herein required in the operation of such West Lot, as herein authorized; and all provisions of this Ordinance shall be enforced at all times by said Board of Public Safety, in accord with the purpose so to serve the public interests and uses of said City Market. Said "West Lot" embraces all of the vacant land area, formerly occupied by Tomlinson Hall and the Market area on the ground floor, lying west of the present West Market, building; north of Market Street, south of Wabash Street; and east of the five foot strip vacated in 1913 off of the entire east side of Delaware Street, between Market and Wabash Streets.

(b) PARKING ON WEST LOT OF CITY MARKET.

(1) For the exclusive benefit and uses of said public City Market; in its exclusive continued operation upon and long established uses of all such Market land; if so finally decided in such pending litigation in favor of the appellants; and meanwhile, for the production of additional needed revenue for such purposes; general public parking of motor vehicles upon all of said West Lot of the City Market, as herein specified and limited, shall be permitted upon all days of the week, and shall be so governed solely by the provisions and limitations of this Ordinance; and shall not be controlled by any provision of the general "Traffic Code," being Title 4 of the Municipal Code, 1951, as amended; except as any provisions of said Traffic Code, or of the Municipal Code, shall be herein incorporated by reference thereto, or may be necessary to supply any relevant omissions in this Ordinance essential to its practical operation.

(2) That said "West Lot" shall be marked off by adequate parking spaces for each coin operated meter, and all such parking shall be limited to a total of one and a half hours on each day; with a minimum fee of five cents for each half hour of the time desired for such parking, between the hours of 7 o'clock A.M. and 6 o'clock P. M., E.S.T., or any later time zone, on each day, except Sundays and holidays. Such West Lot shall be available also for similar use by all patrons of said City Market at all times, upon the same terms, as aforesaid; but the Board of Public Safety, in its discretion, may, by resolution, set aside and plainly mark certain spaces on said West Lot for free parking by patrons on all days and hours the City Market is open for sales to the public; and also may reserve a designated parking space for free use on all week days by the Market Superintendent, and

also a space for the Market Engineer. All spaces so reserved shall have any meters thereon covered, while so used; and shall not be used by any other persons.

(c) PARKING ON EAST PARKING AREA OF THE CITY MARKET

The East parking area of the City Market occupies a small space set off about thirty years ago by a wall on the entire east side of the present East Market Building, bounded on the south by Market Street, on the east by Alabama Street and on the north by Wabash Street, and used ever since for free parking by patrons on all days and hours the City Market is open for public sales; with about 32 parking spaces marked off for motor vehicles; and use on other days by Market vendors.

(1) That such free use, exclusively by Market patrons on such aforesaid days, while the Market is so open for sales, is hereby continued for periods of one and a half hours for such free parking on such days; and any parking meters that may be installed thereon shall be kept covered and not used on such days and hours, when the Market is open for sales; in order to provide such free parking to patrons and thereby promote the business of the City Market, in competition with free parking by all super-markets, and others. Signs shall be placed in such area to show such reservation thereof and parking limits.

(2) Parking meters may be installed in such East area in the discretion of the Board of Public Safety, and be used, on all terms and charges provided for said West Lot, for general public parking, including vendors in the City Market, on all days the City Market is not open for public sales, and all revenues from such parking meters shall be reserved and used for the exclusive benefit of said City Market; as herein elsewhere prescribed for all such meter revenues; less necessary expenses connected therewith. No officials or employees of said City, or other public authority, shall be exempted from such parking fees.

(d) EXTENSION OF PARKING TIME IN ACTUAL EMERGENCIES.

(1) In all instances of actual bona fide emergencies, such as illness or death of any operator of a motor vehicle so parked on either such

West or East parking area; or of some mechanical failure of a vehicle; or of any police traffic orders affecting exits from such lots; such parking time limits may be extended by the Market Master, or any lot attendant, until such vehicle can be removed from such Market areas; and no extra charge due for parking, or violation for expired time, shall be made. Any expense of removing such vehicle shall be charged to and paid for by the owner or operator upon notice by the Board of Public Safety of the amount so due, and unless paid, within five days from the time fixed by such notice, a penalty of Five Dollars shall be added for each fraction of a day after payment is due, unless remitted by the Board of Public Safety for sufficient cause.

Section 3-118. SPECIAL MARKET FUND CREATED; AND DEPOSIT THEREIN OF ALL MARKET RESOURCES.

(1) There is hereby created a special fund, designated as "City Market Fund," in the Department of Finance, under the City Controller; as such a special fund has been actually operated since about 1958; and the uses of all funds therein, for the purposes as herein prescribed, shall be subject to warrants issued to said City Controller by the Board of Public Safety, for the exclusive relevant uses of said City Market. Such special fund shall be a continuing one, with all balances remaining therein at the end of each calendar year, and no such balances shall then lapse into the City General Fund; or ever be diverted, directly or indirectly, in any manner to any other uses than for said City Market; so long as it so continues for the use of all said land for market purposes; unless otherwise finally decided by the courts in the pending litigation. The anticipated needs, uses and expenditures, of the funds at any time in such "Market Fund" shall be set up by the Board of Public Safety in its annual budgets, as now so done and shown; along with a levy of taxes needed to augment such funds each year; and later additions to such special fund may be duly appropriated during each year; as is approved by the Common Council, and as provided by law.

(2) All existing balances now in such similar fund, on the effective date of this Ordinance; or any funds then, or thereafter due for deposit therein from any source, shall be so credited and charged to such special fund by the City Controller, and all shall be merged therein for the exclusive general uses and benefit of said City Market, except as segregated for some special uses thereof. All revenues from all sources; including taxes and all reasonable rentals from market vendors; parking meter fees, and any penalties connected

therewith and so chargeable and permitted by law to be so credited; and any gifts, or bequests for said City Market; shall be kept in such special Market Fund and used as herein prescribed.

(3) The gross proceeds from all such parking meters installed upon such market land shall be collected the same as so done for other such parking meters on the streets and public parking lots, and shall be first subject to payment of any regular costs for such collections and for any expense of installation, maintenance and repair thereof; as so charged generally to other City parking meters; and all the net balances shall be entered on the records thereof in the office of the City Controller and be deposited by him in the existing general 'Parking Meter Fund'; but shall be kept segregated from other funds therein and designated as 'City Market Parking Meter Funds,' and the net proceeds shall be transferred by the City Controller, by order of the Board of Public Safety, to the exclusive general use of the special 'City Market Fund,' herein created, as now informally existing. Such gross proceeds from such parking meters, to be installed on such City Market land, shall be paid out, as follows: If any such parking meters are purchased, or leased, at any time by the City for use on said City Market area, one half of such net proceeds from the use of such meters shall be paid each month, or oftener, as other meters are so paid for; to the seller, or lessor, of such meters, until all of the purchase price is paid and title is vested in the City; and the other half of such net proceeds, as received, shall be kept segregated and be transferred and credited by the City Controller each month to said special "City Market Fund" for all the exclusive general purpose of the City Market; including, but not limiting, such maintenance, repairs, improvements, equipment, and all other costs reasonably necessary for its efficient operation and needs; and reasonable sanitary requirements as so prescribed by law. When all the costs of acquiring such parking meters have been so fully paid for, and all of the aforesaid other costs chargeable to the use of such parking meters are deducted from all the gross proceeds of such use thereof, then all the net proceeds remaining shall be so transferred by the City Controller each month from such parking meter fund to said "City Market Fund" for all further uses thereof as herein prescribed; and all such receipts thereafter received shall be so transferred and credited at least each month, as aforesaid. All such receipts from said parking meters on the City Market land shall be kept segregated from all other meter funds, as received and deposited in said "Parking Meter Fund," until so transferred therefrom, as aforesaid. All funds from such meter proceeds, so deposited in said special "City Market Fund," together with all revenues from all other sources; shall be used exclusively for all

purposes, as needed from time to time, in the operation, maintenance, repairs, equipment, and improvement of all portions of said City Market; and of any other relevant costs or needs thereof; including the maintenance, operation and repairs of said parking meters and for any other reasonable and relevant expenses pertinent to similar machines used by the City.

Section 3-119. PENALTIES. For all violations of the parking time limits and regulations of parking upon said West Lot, or said East parking space, as hereinbefore provided for, the penalties and procedure generally specified for any similar parking violations, in Title 4, Chapter 12, of the Municipal Code of 1951, as amended, relating to the Traffic Violations Bureau, shall here apply, as relevant. Whenever necessary to remove any vehicle from either the West Lot, or East parking space; in the absence of any reason due to an actual emergency as hereinbefore excepted from being any violation; the further provisions of the City Traffic Code in Title 4, Chapter 11, shall here apply; and for any other violations of this Ordinance than those relating to such parking of vehicles, the general penalty provisions in Title 3, Chapter 1, Sec. 3-114, relating to the City Market shall here apply, as relevant.

Section 3-120. REPEALS. Sections 3-115 and 3-116 of Title 3, Chapter 1, of the Municipal Code, 1951, as so added thereto, are hereby expressly repealed, from and after the effective date of this Ordinance. Also, generally, any penal provisions of said general Traffic Code, Title 4, in the Municipal Code, 1951, as amended, which are in conflict with any provisions of this ordinance, except as any such provisions are herein expressly included; are also hereby so excluded, except insofar as any thereof may supply penalties for offenses that are relevant to this public City Market area and uses.

Section 4. This Ordinance shall be in full force and effect from and after its passage, approval by the Mayor and compliance with all laws pertaining thereto and publication thereof according to law.

Which was read for the first time and referred to the Committee on Safety.

JOHN J. BARTON,

Indianapolis, Indiana, July 22, 1964

TO: THE CITY CLERK AND THE COMMON COUNCIL OF THE

CITY OF INDIANAPOLIS

This is to advise that I do, this day, disapprove and veto General Ordinance No. 78, 1964, as amended, which was passed by the Common Council of the City of Indianapolis on July 20, 1964. This veto is based purely on financial considerations. The taxpayers of the City of Indianapolis should not be required to bear the additional costs which would result from reducing the hours of the members of the Fire Department at this time. This does not mean that I am not sympathetic with the desire of the Firemen for shorter hours. I am, and I realize that in other communities, in this state and in others, the hours have been reduced to a Fifty-six (56) hour week. Therefore, it is my suggestion to the members of the Common Council that the Ordinance be reintroduced, but that it be modified so as to take effect on July 1, 1965, rather than January 1, 1965. If passed by the Common Council with this modification, I will sign the Ordinance.

This compromise will cost almost exactly the same as the previously proposed $250.00 per annum wage increase. This increase will not be recommended if the shorter work week is established by Ordinance. In future years it is our hope that additional revenues will be found which will enable the City to provide services under such an Ordinance without increasing individual property tax burdens.

JOHN J. BARTON,
Mayor

Respectfully submitted,

ANGELINE ALLSTATT,
City Clerk

Indianapolis, Indiana, August 3, 1964

To the Honorable President and Members of the Common Council of the City of Indianapolis

Gentlemen:

Transmitted herewith are twenty-eight copies of General Ordinance No. 83, 1964, to amend the Municipal Code of Indianapolis, 1951, General Ordinance No. 140, 1951, as amended, and more particularly Title 4, Chapter 8 thereof, by the addition of Section 4-844, prohibiting parking within twelve feet in either direction from a fire hydrant, providing a penalty for the violation of same and fixing a time when said amendment shall take effect.

| | Time Required In Each Step | | | | | | | | | | | | |

1. The first three top ranks of the Department (Chief, Deputy Chief, Inspector) be given a flat salary for each rank. The salary can be adjusted by the Board of Safety and the Mayor, as they see fit, without changing the scale for the rest of the department ranks.

2. All Officers below the first three top grades shall receive the following:

A. The salary listed in the first step of the proposed chart for the rank held.

B. The adjusted longevity pay for his years of service with the department.

C. Add A. and B.—With this total the Officer will then be placed in step on the chart nearest the total (but not less than) which will be his starting point.

D. Adjusted longevity is only a means of entry into this plan and will be disregarded at concept of origin.

3. After the starting date all Officers will progress thru the chart based on their anniversary date of appointment on the department, effective January 1, 1966.

4. After the starting date, any Officer who is promoted will receive: The pay step in the new rank next highest to his present salary but not less than the increase in pay as listed for each step. (Example: Sergeant pay increase for each step—$190.00) This salary figure will progress from this point thru the chart as long as he retains this rank. An additional promotion will create a like situation.

5. If an Officer is demoted, he will be returned to a position comparable to a position he would have held had he not been promoted.

6. Penalty—Any Officer being suspended for a period of one day and up to ten days for any rule infraction will be placed on a six month probationary period. Any suspension during this period will result in the Officer remaining in his incriment raise bracket for an additional twelve month period. Also, any Officer who is suspended for a period of eleven days or more will be automatically required to remain for an additional twelve months in their present incriment bracket.

7. All Officers holding a technical rank above that of a Technical Patrolman will, upon concept of this plan, so place themselves in the next highest bracket above that as to which they would normally fall to compensate for their rank. This compensation would continue as long as they retain a Technical rating. Upon relinquishment of this Tech-

nical rating, they will forfiet this rating advancement.

8. Salary step one of the chart shall be reviewed every two years so as to be properly adjusted to economic conditions at the time, as based on the National Cost of Living Index.

Angeline Allstatt, City Clerk
2542 City-County Building
Indianapolis, Indiana

Dear Angie:

Thank you very much for sending me a copy of the Resolution adopted by the Indianapolis City Council at its last meeting.

You know that I believe firmly in reapportionment of the state legislature according to equitable principles. I opposed strongly the Dirksen rider to the foreign aid bill which would have attempted to postpone for two years or more the carrying out of the Supreme Court decisions on legislative reapportionment.

I appreciate very much your providing me with this resolution. Please give my regards to all my friends in the Indianapolis City Government.

Sincerely,

BIRCH BAYH
United States Senator

RESOLUTION AUTHORIZING EXECUTION
OF A COOPERATION AGREEMENT

WHEREAS, the Housing Authority of the City of Indianapolis, Indiana, proposes to develop and administer a low-rent housing project or projects to consist of approximately 3000 dwelling units, and

WHEREAS, the City of Indianapolis, desires to enter into a Cooperation Agreement with the Housing Authority of the City of Indianapolis, Indiana, in connection with such project,
NOW THEREFORE, BE IT RESOLVED:

1. That the City of Indianapolis shall enter into a Cooperation Agreement with the Housing Authority of the City of Indianapolis, Indiana, in substantially the attached form.

2. That the Mayor be and he is hereby authorized and directed to execute said Cooperation Agreement, in quadruplicate, in behalf of said City and the Clerk is hereby authorized and directed to affix the corporate seal of said City thereon and to attest the same.

3. That this Resolution shall take effect immediately.

COOPERATION AGREEMENT

THIS AGREEMENT, entered into this 5th day of October, 1964, by and between the Housing Authority of the City of Indianapolis, Indiana, (herein called the "Local Authority") and the City of Indianapolis (herein called the "City").

WITNESSETH:

In consideration of the mutual covenants hereinafter set forth, the parties hereto do agree as follows:
1. Whenever used in this agreement:

(A) The term "Project" shall mean any low-rent housing hereafter developed as an entity by the Local Authority with financial assistance of the Public Housing Administration (herein called the "PHA"); excluding, however, any low-rent housing project covered by any contract for loans and annual contributions entered into between the Local Authority and the PHA, or its predecessor agencies, prior to the date of this agreement.

(B) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a project if it were not exempt from taxation.

(C) The term "Shelter Rent" shall mean the total of all charges to all tenants of a project for dwelling rents and non-dwelling rents (excluding all other income of such Project), less the cost of the Local Authority of all dwelling and non-dwelling utilities.

(D) The term "Slum" shall mean any area where dwellings predominate which, by reason of dilapidation, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health, or morals.

2. The Local Authority shall endeavor (a) to secure a contract or contracts with the PHA for loans and annual contributions covering one or more Projects comprising approximately 3000 units of low-rent housing and (b) to develop and administer such Project or Projects, each of which shall be located within the corporate limits of the City. The obligations of the parties hereto shall apply to each such Project.

3. (a) Under the constitution and statutes of the State of Indiana, all Projects are exempt from all real and personal property taxes levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the City agrees that it will not levy or impose any real or personal property taxes upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and in payment for the Public Services and facilities furnished from time to time without other cost or charge for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (i) ten percent (10%) of the Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year or (ii) the amount permitted to be paid by applicable state law in effect on the date such payment is made, whichever amount is the lower.

(c) The City shall distribute the Payments in Lieu of Taxes among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all of the Taxing Bodies for such year if the Project were not exempt from taxation; *Provided, however,* That no payment for any year shall be made to any Taxing Body in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue or attach on account thereof.

4. The City agrees that, subsequent to the date of initiation (as defined in the United States Housing Act of 1937, as amended) of each Project and within five years after the completion thereof, or such further period as may be approved by the PHA, there has been or will be elimination (as approved by the PHA) by demolition, condemnation, effective closing, or compulsory repair or improvement, of unsafe or insanitary dwelling units situated in the locality or metropolitan area in which such Project is located, substantially equal in number to the number of newly constructed dwelling units provided by such Project; *Provided,* That, where more than one family is living in an unsafe or insanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and *Provided,* further, That this paragraph 4 shall not apply in the case of (i) any Project developed on the site of a Slum cleared subsequent to July 15, 1949, and that the dwelling units eliminated by the clearance of the site of such Project shall not be counted as elimination for any other Project or any other low-rent housing project, or (ii) any Project located in a rural nonfarm area.

5. During the period commencing with the date of the acquisition of any part of the site or sites of any Project and continuing so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the City without cost or charge to the Local Authority or the tenants of such Project (other than the Payments in Lieu of Taxes) shall:

(A Furnish or cause to be furnished to the Local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the City;

(B) Vacate such streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the City may have in such vacated areas; and, in so far as it is lawfully able to do so without cost or expense to the Local Authority or to the City, cause to be removed from such vacated areas, in so far as it may be necessary, all public or private utility lines and equipment;

(C) In so far as the City may lawfully do so, (i) grant such deviations from the building code of the City as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such Project as are reasonable and necessary for the development and protection of such Project and the surrounding territory;

(D) Accept grants of easements necessary for the development of such Project; and

(E) Cooperate with the Local Authority by such other lawful action or ways as the City and the Local Authority may find necessary in connection with the development and administration of such Project.

6. In respect to any Project the City further agrees that within a

reasonable time after receipt of a written request therefor from the Local Authority:

(A) It will accept the dedication of all interior streets, roads, alleys, and adjacent sidewalks within the area of such Project, together with all storm and sanitary sewer mains in such dedicated areas, after the Local Authority, at its own expense, has completed the grading, improvement, paving, and installation thereof in accordance with specifications acceptable to the Municipality;

(B) It will accept necessary dedications of land for, and will grade, improve, pave, and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof the Local Authority shall pay to the City such amount as would be assessed against the Project site for such work if such site were privately owned); and

(C) It will provide, or cause to be provided, water mains, and storm and sanitary sewer mains, leading to such Project and serving the bounding streets thereof (in consideration whereof the Local Authority shall pay to the City such amount as would be assessed against the Project site for such work if such site were privately owned).

7. If by reason of the City's failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or to cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any Payments in Lieu of Taxes due or to become due to the City in respect to any Project or any other low-rent housing projects.

8. No Cooperation Agreement heretofore entered into between the City and the Local Authority shall be construed to apply to any Project covered by this Agreement.

9. So long as any contract between the Local Authority and the PHA for loans (including preliminary loans) or annual contributions, or both, in connection with any Project remains in force and effect, or so long as any bonds issued in connection with any Projects or any monies due to the PHA in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed or modified without the consent of the PHA. The privileges and obligations of

the City hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or by any other public body or governmental agency, including the PHA, authorized by law to engage in the development or administration of low-rent housing projects. If at any time the beneficial title to, or possession of, any Project is held by such other public body or governmental agency, including the PHA, the provisions hereof shall inure to the benefit of and may be enforced by, such other public body or governmental agency, including the PHA.

In Witness Whereof the City and the Local Authority have respectively signed this Agreement and caused their seals to be affixed and attested as of the day and year first above written.

Section 1. That Title 5, Chapter 29 of the Municipal Code of Indianapolis, 1951, General Ordinance No. 140, 1951, as amended, be amended by the addition of the following sections, as follows:

5-2913 FIRE PROTECTION CONTRACT AND SERVICE

The Board of Public Safety of the City of Indianapolis, with the approval of the Mayor of said City shall have the power to enter into contract with any firm, person, corporation, municipality or other governmental unit which is situated at a place not within the corporate boundaries of the City of Indianapolis, but within the County of Marion, and which is desirous of contracting with the City of Indianapolis for the use and services of the City of Indianapolis' Fire Department.

(a) That the details of said contract or contracts shall be specified by said Board of Public Safety but each said contract must incorporate substantially the following provisions:

(1) That the City of Indianapolis may furnish on a calendar year basis, pursuant only to contract, so much of its fire fighting service and apparatus as may be reasonably necessary upon the request of any person, firm, corporation or municipality, or governmental unit when a fire exists at the premises or within the boundaries of said person, firm, corporation, municipality or governmental unit, but that the fire department of the City of Indianapolis shall not provide service at any time when the same would endanger or cripple its own services to the citizens of the City of Indianapolis.

(2) That when any person, firm, corporation, municipality or governmental unit calls upon the Fire Department of the City of Indianapolis, under said contract, they shall pay to the City of Indianapolis for those fire-fighting services and apparatus which may be reasonably available, and which are sent, the following amount

(i) For each engine, truck or fire apparatus other than a vehicular equipment of a supervising unit, $100 for the first hour or fraction thereof, and $75 per hour or fraction thereof, for all time after the first hour.

(ii) For each piece of vehicular equipment of a supervisory unit, $50 for each hour or fraction thereof

(iii) The time for which such charge shall be made shall be computed from the time each piece of fire apparatus or vehicular equipment of a supervisory unit

leaves its quarters or fire station, to the time of its official return thereto.

(3) That any person, firm, corporation, municipal corporation or governmental unit contracting with said City for such fire-fighting service shall file with the City Controller a bond approved by the Controller of said City conditioned to pay all charges for services rendered and to keep and save harmless the City of Indianapolis from whatsoever which the City of Indianapolis may suffer or which may accrue against, be charged to or be recovered from the City of Indianapolis or any of its officials or firemen, or any pension, medical bills or other bills which may accrue by reason or account of the injuries to firemen or other persons or property in the performance of said service during the time said fire apparatus or vehicular equipment as of a supervisory unit leaves quarters at the fire station to the time of its official return thereto. Such bond shall be in the amount of $250,000; in lieu of such bond, public liability insurance insuring the City of Indianapolis for the above for the amount of $250,000 may be furnished, subject to the approval of the City Controller and in addition thereto, a bond of $2000 shall likewise be furnished to pay for any service rendered by the City of Indianapolis, in addition to said insurance.

These fences may be omitted where the building is not over thirty-five (35) feet high and is set back twenty (20) feet from the street or alley line.

The entire area of the fan shall be floored with two (2) inch plank laid tight, and solid plank guardrail three (3) feet in height shall be provided on outer edge and ends of the fan rigidly braced and secured to lookouts.

8-1518 Before a permit is issued for the wrecking of any building, such application for permit shall be referred to the Department of Health for examination of the premises to determine whether or not rodent extermination procedures are necessary. The applicant must also receive letters from the Indianapolis Power and Light Company, the Indianapolis Water Company, the Citizens Gas & Coke Utility and the Indiana

After obtaining the letters from the various utilities and Board of Health, as well as the permission of the Department of Public Works or any such other city departments required for occupancy of any public property, the wrecker shall proceed to erect all required protections and shall then notify the Department to inspect the same before proceeding with the wrecking operations.

8-1519 All roof structures, all signs and other exterior appurtenances shall be removed before wrecking operations are started.

8-1520 The wrecking company, or person who secures the permit for the razing of the structure, will be held responsible for the compliance with these regulations and other laws and ordinances covering this subject. RESOLUTION AUTHORIZING EXECUTION
OF A COOPERATION AGREEMENT

WHEREAS, the Housing Authority of the City of In-

dianapolis, Indiana, proposes to develop and administer a low-rent housing project or projects to consist of approximately 3000 dwelling units; and

WHEREAS, the City of Indianapolis, desires to enter into a Cooperation Agreement with the Housing Authority of the City of Indianapolis, Indiana, in connection with such project,

NOW THEREFORE, BE IT RESOLVED:

1. That the City of Indianapolis shall enter into a Cooperation Agreement with the Housing Authority of the City of Indianapolis, Indiana, in substantially the attached form.

2. That the Mayor be and he is hereby authorized and directed to execute said Cooperation Agreement, in quadruplicate, in behalf of said City and the Clerk is hereby authorized and directed to affix the corporate seal of said City thereon and to attest the same.

3. That this Resolution shall take effect immediately.

COOPERATION AGREEMENT

THIS AGREEMENT, entered into this 5th day of October, 1964, by and between the Housing Authority of the City of Indianapolis, Indiana, (herein called the "Local Authority") and the City of Indianapolis (herein called the "City").

WITNESSETH:

In consideration of the mutual covenants hereinafter set forth, the parties hereto do agree as follows:

1. Whenever used in this Agreement:

(a) The term "Project" shall mean any low-rent housing hereafter developed as an entity by the Local Authority with financial assistance of the Public Housing Administration (herein called the "PHA"); excluding, however, any low-rent housing project covered by any contract for loans and annual contributions entered into between the Local Authority and the PHA, or its predecessor agencies, prior to the date of this agreement.

(b) The term "Taxing Body" shall mean the State or any political subdivision or taxing unit thereof in which a Project is situated and which would have authority to assess or levy real or personal property taxes or to certify such taxes to a taxing body or public officer to be levied for its use and benefit with respect to a project if it were not exempt from taxation.

(c) The term "Shelter Rent" shall mean the total of all charges to all tenants of a Project for dwelling rents and nondwelling rents (excluding all other income of such Project), less the cost to the Local Authority of all dwelling and nondwelling utilities.

(d) The term "Slum" shall mean any area where dwellings predominate which, by reason of dilapida-

tion, overcrowding, faulty arrangement or design, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health, or morals.

2. The local Authority shall endeavor (a) to secure a contract or contracts with the PHA for loans and annual contributions covering one or more Projects comprising approximately 3000 units of low-rent housing and (b) to develop and administer such Project or Projects, each of which shall be located within the corporate limits of the City. The obligations of the parties hereto shall apply to each such Project.

3. (a) Under the constitution and statutes of the State of Indiana, all Projects are exempt from all real and personal property taxes levied or imposed by any Taxing Body. With respect to any Project, so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid, whichever period is the longest, the City agrees that it will not levy or impose any real or personal property taxes upon such Project or upon the Local Authority with respect thereto. During such period, the Local Authority shall make annual payments (herein called "Payments in Lieu of Taxes") in lieu of such taxes and in payment for the Public Services and facilities

furnished from time to time without other cost or charge for or with respect to such Project.

(b) Each such annual Payment in Lieu of Taxes shall be made after the end of the fiscal year established for such Project, and shall be in an amount equal to either (i) ten percent (10%) of the Shelter Rent charged by the Local Authority in respect to such Project during such fiscal year or (ii) the amount permitted to be paid by applicable state law in effect on the date such payment is made, whichever amount is the lower.

(c) The City shall distribute the Payments in Lieu of Taxes among the Taxing Bodies in the proportion which the real property taxes which would have been paid to each Taxing Body for such year if the Project were not exempt from taxation bears to the total real property taxes which would have been paid to all of the Taxing Bodies for such year if the Project were not exempt from taxation; **Provided, however,** That no payment for any year shall be made to any Taxing Body in excess of the amount of the real property taxes which would have been paid to such Taxing Body for such year if the Project were not exempt from taxation.

(d) Upon failure of the Local Authority to make any Payment in Lieu of Taxes, no lien against any Project or assets of the Local Authority shall attach, nor shall any interest or penalties accrue or attach on account thereof.

4. The City agrees that, subsequent to the date of initiation (as defined in the United States Housing Act of

1937, as amended) of each Project and within five years after the completion thereof, or such further period as may be approved by the PHA, there has been or will be elimination (as approved by the PHA) by demolition, condemnation, effective closing, or compulsory repair or improvement, of unsafe or insanitary dwelling units situated in the locality or metropolitan area in which such Project is located, substantially equal in number to the number of newly constructed dwelling units provided by such Project; **Provided,** That, where more than one family is living in an unsafe or insanitary dwelling unit, the elimination of such unit shall count as the elimination of units equal to the number of families accommodated therein; and **Provided,** further, That this paragraph 4 shall not apply in the case of (i) any Project developed on the site of a Slum cleared subsequent to July 15, 1949, and that the dwelling units eliminated by the clearance of the site of such Project shall not be counted as elimination for any other Project or any other low-rent housing project, or (ii) any Project located in a rural nonfarm area.

5. During the period commencing with the date of the acquisition of any part of the site or sites of any Project and continuing so long as either (i) such Project is owned by a public body or governmental agency and is used for low-rent housing purposes, or (ii) any contract between the Local Authority and the PHA for loans or annual contributions, or both, in connection with such Project remains in force and effect, or (iii) any bonds issued in connection with such Project or any monies due to the PHA in connection with such Project remain unpaid,

whichever period is the longest, the City without cost or charge to the Local Authority or the tenants of such Projects (other than the Payments in Lieu of Taxes) shall:

(a) Furnish or cause to be furnished to the local Authority and the tenants of such Project public services and facilities of the same character and to the same extent as are furnished from time to time without cost or charge to other dwellings and inhabitants in the City;

(b) Vacate such streets, roads, and alleys within the area of such Project as may be necessary in the development thereof, and convey without charge to the Local Authority such interest as the City may have in such vacated areas; and, in so far as it is lawfully able to do so without cost or expense to the Local Authority or to the City, cause to be removed from such vacated areas, in so far as it may be necessary, all publice or private utility lines and equipment;

(c) In so far as the City may lawfully do so, (i) grant such deviations from the building code of the City as are reasonable and necessary to promote economy and efficiency in the development and administration of such Project, and at the same time safeguard health and safety, and (ii) make such changes in any zoning of the site and surrounding territory of such project as are reasonable and necessary for the development and protection of such Project and the surrounding territory;

(d) Accept grants of easements necessary for the development of such Project; and

(e) Cooperate with the Local Authority by such other lawful action or ways as the City and the Local Authority may find necessary in connection with the development and administration of such Project.

6. In respect to any Project the City further agrees that within a reasonable time after receipt of a written request therefor from the Local Authority:

(a) It will accept the dedication of all interior streets, roads, alleys, and adjacent sidewalks within the area of such Project, together with all storm and sanitary sewer mains in such dedicated areas, after the Local Authority, at its own expense, has completed the grading, improvement, paving, and installation thereof in accordance with specifications acceptable to the Municipality;

(b) It will accept necessary dedications of land for, and will grade, improve, pave, and provide sidewalks for, all streets bounding such Project or necessary to provide adequate access thereto (in consideration whereof the Local Authority shall pay to the City such amount as would be assessed against the Project site for such work if such site were privately owned); and

(c) It will provide, or cause to be provided, water mains, and storm and sanitary sewer mains, leading to such Project and serving the bounding streets thereof (in consideration whereof the Local Authority shall pay to the City such amount as would be assessed

against the Project site for such work if such site were privately owned).

7. If by reason of the City's failure or refusal to furnish or cause to be furnished any public services or facilities which it has agreed hereunder to furnish or to cause to be furnished to the Local Authority or to the tenants of any Project, the Local Authority incurs any expense to obtain such services or facilities then the Local Authority may deduct the amount of such expense from any payments in lieu of Taxes due or to become due to the City in respect to any Project or any other low-rent housing projects.

8. No Cooperation Agreement heretofore entered into between the City and the Local Authority shall be construed to apply to any Project covered by this Agreement.

9. So long as any contract between the Local Authority and the PHA for loans (including preliminary loans) or annual contributions, or both, in connection with any Project remains in force and effect, or so long as any bonds issued in connection with any Project or any monies due to the PHA in connection with any Project remain unpaid, this Agreement shall not be abrogated, changed or modified without the consent of the PHA. The privileges and obligations of the City hereunder shall remain in full force and effect with respect to each Project so long as the beneficial title to such Project is held by the Local Authority or by any other public body or governmental agency, including the PHA, authorized by law to engage in the development or administration of low-rent housing projects. If at any time the beneficial title to, or

possession of, any Project is held by such other public body or governmental agency, including the PHA, the provisions hereof shall inure to the benefit of and may be enforced by, such other public body or governmental agency, including the PHA.

IN WITNESS WHEREOF the City and the Local Authority have respectively signed this Agreement and caused their seals to be affixed and attested as of the day and year first above written.
